

Add an E-mail Account

Please enter your e-mail account information below:

E-mail address: youname@comsouth.net
example555@hotmail.com [Get a free e-mail account](#)

Password: ●●●●●●
 Remember password

How should your name appear in e-mail sent from this account?

Display Name: What you want to show up|
For example: John Smith

Manually configure server settings for e-mail account.

Next Cancel

Put in your email address, Password and check the box to remember PW.
Then type in what you want to show up, IE: your complete name
I suggest you Manually configure the server settings. Click next

Where can I find my e-mail server information?

Incoming Server Information

My incoming mail server is a **POP3** server.

Incoming server: Port:

This server requires a secure connection (SSL)

Log on using: **Clear text authentication**

Login ID (if different from e-mail address):

Outgoing Server Information

Outgoing server: Port:

This server requires a secure connection (SSL)

My outgoing server requires authentication

Next **Cancel**

Incoming Mail = mail.comsouth.net

Clear Text

Your full email address including @comsouth.net

Outgoing Mail = smtp.comsouth.net

Check the box My outgoing server requires authentication

NOTE: By default this email client leaves the email on the server until you click delete. This could cause your email account to fill up.
